## **SKILLS**

Customer Success Management, Data Analytics, SQL, Product Strategy, SaaS Operations, Retention & Adoption Strategy, Lifecycle Management, Cross-Functional Collaboration, Technical Enablement, Process Improvement

#### PROFESSIONAL EXPERIENCE

## **Business Operations Manager**

Stacy Machine and Tooling, Broomfield, CO | Feb 2023 - Oct 2025

Streamlined cross-functional workflows across engineering, quality, and operations to deliver over \$3M in regulated components on time, with zero compliance issues and measurable efficiency gains.

- Support cross-functional workflows between engineering, quality control, and operations to ensure high-quality, on-time delivery of custom-manufactured components.
- Delivered \$3M+ in regulated products with zero quality or compliance issues.
- Ensured 100% documentation accuracy, maintaining audit-ready control standards with zero compliance findings.
- Reduced delivery lead times by 20% by streamlining vendor coordination and internal workflows.

## Freelance Full Stack Developer & Marketing Consultant

State Of LLC, Boulder, CO | Aug 2016 - Oct 2025

Built analytics dashboards, digital workflows, and marketing systems for SaaS clients that increased visibility, improved adoption, and drove triple-digit growth in engagement and traffic.

- Delivered consultative guidance to SaaS clients, translating technical insights into product adoption and growth.
- Built analytics dashboards that improved data visibility and accelerated decision-making.
- Developed websites and reporting systems that increased traffic by 300%, improving conversion outcomes.

#### **Technical Success Manager**

Quantive, Denver, CO | Nov 2020 - Feb 2023

Managed enterprise SaaS portfolios and led technical onboarding, using data insights and SQL-driven reporting to drive product adoption, retention, and measurable customer outcomes.

- Served as a trusted advisor between sales, product, and engineering to align onboarding with long-term success.
- Managed 13 enterprise SaaS accounts representing \$5M ARR, overseeing integrations and adoption.
- Built 50+ modular SQL dashboards and reports to track KPIs, support audits, and inform retention strategies.
- Led training sessions, success reviews, and technical enablement to drive platform self-sufficiency and retention.

#### **Business Operations & Fulfillment Lead**

Yakoda Supply Co., Boulder, CO | Oct 2019 - Oct 2020

Directed fulfillment and customer service operations across retail, e-commerce, and wholesale channels, achieving 99% order accuracy and improving response and delivery SLAs.

- Oversaw customer service and fulfillment across retail, e-commerce, and wholesale channels.
- Maintained 99% transaction accuracy across 5,000+ shipments through optimized workflows and QA processes.
- Sustained a 24-hour SLA for all customer communications, driving repeat business and high satisfaction scores.
